

FAST FACTS

ABOUT PERMIT PARKING

- * *People who live, work and shop within the new Civic Plaza and University neighborhoods rely on street parking to conduct their daily activities. On many streets within these neighborhoods, parking can be difficult to find. Future neighborhood changes, including development of the new City Hall and San Jose State University's proposal to move to a year-round class schedule, may increase parking demand. The City Council formed a citizen Parking and Traffic Committee (PTC) to review possible parking and traffic impacts in and around the planned Civic Center. The PTC is currently in support of the Residential Permit Parking Program.*
